

**RTMS Micro Soldering tip,
conical Ø 0,1 mm, chrome,
not wettable, MIL- SPEC**

Item No: T0050109999

RTMS Micro tip, conical Ø 0.1 mm,
chrome, not wettable, MIL- SPEC

KEY FEATURES

- + Perfect for All Micro and Standard Applications for micro and standard component sizes:
Smart high performance active tips for micro and standard components: 0504 to 1608 (M to L)
- + Extremely Fast 5-Second Heat-up Time
- + Maximum Precision:
Short tip-to-grip distance and optimized shape provides maximum precision during the soldering process.
- + Wide Tip Range for Every Application:
More than 40 smart universal soldering tip shapes and sizes that are connectable to just one soldering iron, with no need for additional tools.
- + Clear Identification Smart Tips
- + Full Process Control with Tip Lock Function
- + Full Traceability with Tip ID Number and Integrated Data Storage
- + Accurate Data Results with Tip-Offset Function
- + Fast, Safe and Easy Tip Exchange
- + Maximum Protection:
(IPC industry standards - TM-650 2.5.33)
